"Out of a Job"

You don't have to be everlastingly watching the "want" columns if you have the knowledge that not only puts you in a good position, but that also keeps you there at a steadily increasing salary.

It's not a question of being a walking encyclopedia, but of having the sound, practical training that makes you an expert at your chosen calling—that brings you a good salary year in and year out—that puts you first on the promotion list and last on the "laid-off list"—that keeps your position safe and sound while other claps are going the rounds looking for work.

The International Correspondence Schools, of Scranton, deal in training for higher salaries. The I. C. S. comes right to your home and makes you an expert—whether you're sixteen or sixty—whether you live one or one thousand miles away—whether you're an outside or an inside man. Does it in your spare time, without requiring you to buy a single book. To learn how the I. C. S. can help you, mark the attached coupon and mail it today. No charge for the information and advice it brings.

A Good Position and More Money

Not a dollar or two more, but your salary doubled, trebled, quadrupled. That's the kind of success thousands of poorly paid men and women have already won through I. C. S. help. On an average 400 students every month voluntarily report salaries increased and multiplied as the direct result of I. C. S. help.

Mail the coupon NOW.

International Correspondence Schools

Exchange Gossip

Mrs. J. B. Orange of Alliance arrived Tuesday night for a few days visit with friends.—Chadron Journal.

True Miller went with his car to Alliance, Tuesday, he and wife returning yesterday. * * * Henry

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To
Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

Mashek is the latest to join the ranch gas burners, having invested in a "30" Overland, Harley Miller assisting him in the drive from Alliance here yesterday. These new Overlanders are making demand for Harley, and he is developing into a first-class instructor for buzz wagoners. * * * Ed. Ollrog went to Alliance in his Overland, Tuesday afternoon, taking Mrs. E. T. Gregg, Miss Doris and C. H. Richey. Mr. R. left Alliance that night for Rochester, Minn., to consult the Mayo doctors, and see if he may gain some relief from his ailment of several years, but which has been more pronounced this spring. Ed. and the ladies returned Wednesday forenoon.—Marsland Tribune.

John W. Thomas of the Alliance Herald was here on his way to Omaha and dropped in to this office to say hello. Mr. Thomas' paper pays special attention to a stock department and he was going to Omaha on business in this connection yesterday. * * * W. D. Fisher of Alliance was here the latter part of last week on his way home from Lincoln where he had attended a state meeting of Commercial Club men. Mr. Fisher is having good success with his Alliance work and is under contract with the club there for a good part of a year yet.—Norfolk Press.

A traveling booze agent of Denver was fined \$50 and costs by the mayor of Scottsbluff last week. This member of the "Denver Boozier

Club" no doubt thinks all roads in Nebraska are hard to travel. The North Platte valley towns are making life one continual round of torment for Denver boot-leggers. They are bound for hell anyway, but as the Denver Post says, "Better go by way of Julesburg." The Post is "reliable" with the accent on the second syllable.—Scottsbluff Republican.

Frank J. Was, cashier of the First National bank of Alliance, visited our city on Thursday last.—Broadwater News.

Trainmaster Nelson of the Alliance division, and Building Inspector Bell with engine 366 were in Edgemont Thursday morning on an inspection of bridges.—Edgemont Express.

Dr. Jones took Frank Hedglin to Alliance Sunday and performed an operation for appendicitis. Mr. H. was taken with a severe attack Saturday night. The operation was performed in due time, before the pus had broken bounds and superated through the body to poison the system. * * * Dr. Deputy of Bayard died Tuesday morning, of tuberculosis. Here was a man loved by everybody who knew him. He had known for years that the white plague claimed him for its own. Skilled physician that he was, he thought little about himself. He had a kindly, affectionate interest in people that went deeper than the mere anxiety of the faithful physician for the welfare of his trusting patient. He performed life's duties like a true man—a brother to his kind as well as faithful physician. He was conscious to the last, and knew full well the end was approaching, and passed into the unknown unafraid. He died as heroes die—thoughtful only of his wife and children, and his weeping friends. Fortunately for the world there are many of Dr. Deputy's kind, but none too many. He leaves a wife and a daughter and son to treasure the memory of a loving husband and father.—Bridgeport Herald.

Miss Leota Walker of Mason City has been re-engaged for the second year as teacher in the Alliance city schools. * * * G. F. Jackson, a postal clerk on this route from Lincoln to Alliance, recently had a bullet taken out of his leg that he has carried there sixteen years. The bullet was the result of an accident while hunting. * * * The Lincoln police are looking for Alfred Bourne. Alf is not guilty of any particular thing outside of being a hobo, but they want to find him to let him know his old uncle died in Australia and left him a seven million dollar fortune.—Mason City Transcript.

The commercial club of Alliance has put three good ordinances up to the city dads for consideration, and urges their passage. One would compel each citizen to provide a safe and secure place for retaining ashes—a metallic can or vault and that ashes be wet down when moved. That would be an excellent ordinance for Wayne to have, for even the farmers who come to town criticize the unsightly ash piles, and object to the practice of burning papers on the streets. Another would compel all grocers, restaurants, meat markets, livery barns and other places that attract and breed flies to keep one or more fly traps in operation during the summer season. The other was to make it necessary to present plans and secure a permit for all new buildings and additions thereto, so that there might be city supervision of building. They are all good.—Wayne Democrat.

Carl Thomas of Alliance, who was formerly the Courier linotype operator, spent Sunday with friends in this city.—Gering Courier.

Judge Westover of Rushville was in town on Monday and made a social call at this office. The senior editor was out at the time and regrets very much that he missed meeting the judge as he does not enjoy the pleasure of his acquaintance. Next time we go to Rushville we will run the court down.—Gordon Journal.

Guard Your Children Against Bowel Trouble

Many children at an early age become constipated, and frequently serious consequences result. Not being able to realize his own condition, a child's bowels should be constantly watched, and a gentle laxative given when necessary. Dr. Miles' Laxative Tablets are especially well adapted to women and children. The Sisters of Christian Charity, 531 Charles St., Luzerne, Pa., who attend many cases of sickness say of them:

"Some time ago we began using Dr. Miles' Laxative Tablets and find that we like them very much. Their action is excellent and we are grateful for having been made acquainted with them. We have had good results in every case and the Sisters are very much pleased."

The form and flavor of any medicine is very important, no matter who is to take it. The taste and appearance are especially important when children are concerned. All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection. The rich chocolate flavor and absence of other taste, make Dr. Miles' Laxative Tablets the ideal remedy for children.

If the first box fails to benefit, the price is returned. Ask your druggist. A box of 25 doses costs only 25 cents. Never sold in bulk.

MILES MEDICAL CO., Elkhart, Ind.

Dusty's Dabblings

A headline in an exchange states: "Widow Fights for \$16,000,000." There are plenty of widows, and others, too, that will fight for a great deal less than that.

There is only one letter's difference in the spelling of "leaner" and "leader", but, oh, what a difference in their meanings.

One reason some people never get ahead is because they spend too many five dollar bills in winning two-bit prizes.

In this highly educated age, there are still a few ignorant mail order concerns that insist on stamping in the upper right hand corner of their envelopes, "Place Stamp Here".

Honesty continues to be the best policy. Only the other day a lady in a neighboring city found a pocket book containing \$3,000. She spent fifty cents in finding the owner, and was given the reward—which was twenty-five cents.

Here is one that will give the mathematicians an opportunity to display their ability: "If it takes a four-month-old woodpecker with a rubber bill nine months and thirteen days to peck a hole through a cypress log that is large enough to make 117 shingles, and it takes 165 shingles to make a bundle worth 93 cents, how long will it take a cross-eyed grasshopper with a cork leg to kick all the seeds out of a dill pickle?"

That stylish Alliance lady who persists in parading the streets wearing low shoes and with a small hole in the heel of her stocking showing above, will please either get a new pair of hose or else wear high topped shoes. This is published by request.

Annual crop note: "Big Crop Prospects Cause Wheat Decline."

Some refined lady takes up considerable space in an exchange with an editorial on "mashers", stating that it is necessary for women to appeal for police protection in such cases. No, dear lady, if the women will wear enough clothes to cover their anatomy and wear them in the right shape, it will not be necessary to ask for assistance from the police so often.

The United States is not the only nation that has required the "ultimatum" habit. Japan recently sent an ultimatum to China.

It is said that a dollar bill collects all the filth and dirt in its neighborhood in its rounds from the pockets of one man to another, but it seems that every one is willing to take chances on getting some filth in their pockets.

The Chicago officials have gone and done it. They have issued an order that hereafter all kisses must be short and snappy. This means that there will be no more of those long-winded, six cylinder, self starting, soul kisses. And to make matters worse, all catch-as-catch-can hugging has also been tabooed by the heartless officials, and it is now compulsory that the young man put his arm on or above his lady love's shoulder. Great guns! Have the Chicago city officials forgotten the many happy moments, or even hours, they have spent spattering kisses over a girl's countenance, and the deliciousness of each single hug and kiss which they bestowed and received in their younger days? Shame on them for putting a time limit on kisses. Somebody should get out a restraining order and prohibit them from enforcing the rule. For what good is a kiss if you can't draw it out to suit the occasion—and the girl? (Alliance officials—take notice.)

Little girl, you surely look cute in that new dress of yours, don't you?—The one that starts somewhere between the neck and waistline and stops long before it gets to your feet. It's right in style, isn't it? Of course you have to be in style, no matter how it looks. And you think you are making quite a hit, don't you, little one? You think you are a leader in styles. Naturally you think so, because all the men on the street gaze at you as you trip merrily along your way. Sure they look at you—but did you ever, little foolish one, stop to consider why they gazed at you? No? Were you contented enough to think they were admiring your pretty face? You hadn't given much thought to that, had you? Well, listen—you just ask your big brother about it tomorrow, and if he isn't too sensitive about giving your pride a severe jolt, he will put you right on a few things, and if you follow his advice you will go home and put on something that will cover two legs and other parts of your anatomy.

Just as long as you put on all of that so-called style, just that long are you inviting insulting remarks and rude stares from the men. For there is nothing so charming as a young girl's modesty, and the one who realizes this and gets a lot of foolish notions out of her head is the one who gets the best and makes the most out of life—not the one whose sole ambition is to see how much of herself she can exhibit to the gaze of the public.

MAN TAKES HIS OWN MEDICINE IS AN OPTIMIST

He has absolute faith in his medicine—he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery for an irritating Cold are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs, and open the way for Nature to act. You can't destroy a Cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery

Over 90 per cent of Business Men Fail

Men fail in business because they do not know the game. They lack system and a thorough knowledge of their business. The reason why so many would-be farmers fail is because they know little or nothing of the science of farming. They think anybody can farm and then are surprised to find that their crops will not grow. The farmer who is always behind, who always has bad luck with his crops, is the man who farms by guess and trusts to luck. If he were in the mercantile business he would be in the hands of a receiver within a year. He is a failure but he hangs on because the poorest farmer can get a living out of the land if he only plows and sows the seed.

An Agricultural Education

The first thing a young man who intends to go into business should do is to take a course in a business college. Here he can become familiar with the first principles of business, without which he will fail. The first thing a man who expects to farm should do is to take a course in an agricultural college, if he can, but if he has not the time or the money to spend in a two-year course, he can get the same instruction at home by taking a course in the **Campbell Correspondence School of Soil Culture**. Everything is furnished—books and all—at a very slight cost, and the best thing about it, he does not have to leave the farm or his work.

He can choose from the following courses:

- | | |
|-------------------------|-------------------------|
| Soil Improvement Course | Cereal Culture Course |
| Horticultural Course | Dry Farming Course |
| Small Farming Course | Farm Engineering Course |
| | Soil Tillage Course |

Summer is the time to study agriculture, and the farm and garden is the laboratory in which to work out the problems. Don't wait for fall or winter to begin, but get busy now. You will learn more in one summer applying your instruction in the fields than in a dozen winters sitting by the fire.

Send for our catalog Number 8. It will not cost you a cent.
